

The Mathematical Quantum Physics group at the University of Innsbruck (led by Gemma De las Cuevas) is inviting applications to fill in 2 PhD student positions. The work will be at the intersection of mathematical physics and quantum many-body physics. Candidates must have completed an excellent Master Thesis in Physics or Mathematics (or both), and must be highly motivated. Applications of women are encouraged. Applicants should send their CV, their degree's grades, a reference letter of their Master Thesis supervisor and a short motivation text to gemma.delascuevas@uibk.ac.at at their earliest convenience.

The earliest starting date is January 1, 2020. For more information visit:
